## CURE FOLLOWED CHINA APPRALS YEAR OF AGONY

Intense Itching Eczema Drove Him Nearly to Despair—Chief Surgeon of a London Hospital Called It Worst Case He Had Ever Seen -Got Little or No Relief Until

CUTICURA STOPPED HIS UNBEARABLE TORTURE

"About four years ago, in London, I was troubled by a severe itching and dry, scurfy skin on my ankles and feet. The same, in a few days, was the case with my ar ms and

appeared, with inflam mation and sore hess.
After ten days, thousands of small red pimples formed. On becoming dry, these caused intense itching. I was advised to go to the hospital for diseases of the skin. I did so and was an out-patient for a month or more, the chief surgeon saying: 'I never saw such a bad case of eczema.' But I got little or no relief. Then I tried many so-called remedies, but I became so bad that I almost gave up in despair. On coming to this country I heard so many accounts of cures by Cuticura Remedies that I resolved, as a last resource, to give them a trial. This was after suffering agonies for twelve months, and right glad am I that I did so, for I was relieved of the almost unbearable itching after two or three applications of Cuticura Continuent. I continued its use, combined with a liberal use of Cuticura Soap and Cuticura Resolvent Pills and am more than thankful to say that after using three sets of the Remedies, I was completely cured. I can only add that, should any one be suffering as I did, I hope that they will do as I did, and I am sure of the results. Heary Searle, 2022 Cross St., Little Rock, Ark., Oct. 8 and 10, '07.''

Brussels, Aug. 13 .- The Chinese graphed to the Chinese legation here the text of China's circular note to the text of China's circular note to the powers, dated Aug. 11, in which the government upholds its attitude in the question of the Antung-Muk-

Then large red patches appeared, with inflammation made many concessions to Japan, question and pointing out that China who still tried to throw upon China's shoulders the responsibility for the delay in beginning the work, the note declares Japan's interest in the line to be entirely strategic and in no sense economic. "Japan has sought unjustified ag-

"In the present case the attack on China's rights is flagrant. China, like Japan, now addresses herself to the powers. She is conscious that she has defended not only her own legitimate rights, but the veritable interests of the powers against the presensions of Japan."

Treaty is Violated. Continuing, the note sets forth that Japan, in announcing that she would take up the construction of this line without further negotiations, went outside the treaty of 1905, which stipulated that China should have the right to police the railroad and survey its construction. That China was inclined to be consiliatory is shown by the fact that she accepted the proposal to widen the tracks from narrow to standard gauge, and agreed to certain changes

in the permanent line. In conclusion the note says: "The interest of the powers is that no one shall occupy a privileged position in Manchuria. China will confidelity to existing treaties. She refuses to grant to Japan the right to in these negotiations China will con-
